British Heart Journal

Aorto-left ventricular tunnel. Clinical features and surgical management
Jane Somerville, T. English, and D. N. Ross

Congenital coronary artery aneurysms
R. Seabra-Gomes, Jane Somerville, D. N. Ross, R. Emanuel, D. J. Parker, and M. Wong

Long-term treatment of refractory supraventricular tachycardia by patient-controlled inductive atrial pacing
David O. Williams and P. H. Davison

Echocardiography of the aortic valve. I: Studies of normal aortic valve, aortic stenosis, aortic regurgitation, and mixed aortic valve disease
Özgen Feizi, C. Symons, and M. Yacoub

Heart size in older people
J. S. Milne and I. J. Lauder

Response of the left ventricle to nitroglycerin in patients with and without mitral regurgitation
A. D. Sniderman, D. G. F. Marpole, W. H. Palmer, and E. L. Fallen

Left ventricular mass in coronary artery disease without hypertension.

Haemodynamic and angiographic study
H. J. Pech, J. Witte, R. Romaniuk, R. A. Parsi, and W. Porstmann

Systolic time intervals in coronary artery disease as indices of left ventricular function: fact or fancy?
M. E. Parker and H. G. Just

Disparities in ventilatory and circulatory responses to bicycle and treadmill exercise
M. Niederberger, R. A. Bruce, F. Kusumi, and Shirley Whitkanack
